

## **GEAT III Goal 4**

### **Minutes**

**Monday, April 8, 2019**

**2:00 – 3:00 p.m.**

Shawna, Mary and I met to discuss how to best proceed with the report. We are following the April 12th memorandum outlining the charge for assessing General Education Goal 4. We have divided the work as follows:

1. Shawna will address the section regarding: "gaining knowledge of delivery options, courses offered, the representation of disciplines, and credit hour production" (including the bulleted items below that section).
2. Mary and Carol are researching and covering the section regarding: "environmental scan" and the bullets beneath that section.
3. Carol is covering schools outside of the Kansas Board of Regents system.
4. Mary is researching the schools within KBOR. We hope that some of our report will aide in the research needed next year as GEAT IV begins their research process.
